## EDUCATION

### The Ohio State University

*Bachelor of Science in Computer Science and Engineering (Honors); GPA: 3.93*

Columbus, OH

*Expected May 2026*

### Beachwood High School

*Graduated with Honors; SAT: 1480; ACT: 35; GPA: 4.47*

Beachwood, OH

*August 2018 – May 2022*

## EXPERIENCE

### Tender Care ABA

*HR Manager, IT Intern*

May 2023 – Present

*Cleveland, Ohio*

- Collaborated with team members to develop and maintain the company web page to ensure enhanced user experience and up-to-date content
- Built and programmed an interactive company calendar that could be used by both clients and staff
- Monitored, serviced, and resolved technical requests (hardware and software) to prevent similar issues
- Implemented improved processes in client acquisition, communication, and staff training to maximize efficiency

### The Ohio State University Club Tennis

*Financial Officer, Member*

August 2022 – Present

*The Ohio State University*

- Produced models to accurately project the budget and allocate expenses throughout the year
- Maintained and managed the budget of 100+ club members, increasing team funds by 20% from the previous year
- Regularly communicated and attended meetings with other board members to increase productivity

### Artificial Intelligence Club

*Member*

August 2022 – Present

*The Ohio State University*

- Designed and developed a project using Python and Google Colab
- Integrated machine learning and artificial intelligence to analyze, sort, classify, and predict housing prices
- Worked with other club members during workshops to solve problems and improve project performance

### Competitive Programming Club

*Member*

August 2022 – Present

*The Ohio State University*

- Learned and implemented new algorithms, methods, and skills to improve problem-solving skills
- Explored and utilized different methods to improve runtime and minimize memory usage
- Competed against 100+ teams in various frequent programming competitions

### Grade Potential

*STEM Tutor*

May 2022 – Present

*Cleveland, Ohio*

- Tutored multiple students every week in all subjects of STEM
- Developed creative individualized lesson plans for each student, improving average student scores
- Formed personal bonds with each student and parents, improving and enhancing student experience

## PROJECTS

### JPMorgan Code For Good 2023 | *MongoDB, Express, React, Node, Visual Studio Code, Git*

November 2023

- Worked with a team to develop a MERN stack application for Goodwill Columbus
- Integrated Full Stack components to promote Goodwill's program and stimulate real-time two-way communication
- Implemented Tailwind and various mobile features to improve the user interface and enhance user experience

### FEH Robot Competition | *C/C++, VS Code, SOLIDWORKS, Machine Shop*

August 2022 – May 2023

- Collaborated with a team to brainstorm and design an autonomous robot that could complete a given course
- Constructed a physical model using cardboard and a virtual model using CAD to accurately model the robot
- Used the machine shop and different methods to optimize material usage to stay within the given budget
- Regularly programmed and documented the robot to improve efficiency and minimize course completion time

## SKILLS/INTERESTS

**Skills:** Java, JavaScript, HTML/CSS, Python, C/C++, MATLAB, Swift, Microsoft Excel, CAD, Git

**Languages:** Fluent in Chinese, Proficient in Spanish

**Interests:** Traveling, Skiing, Tennis, Music
